SUMMARY

Results-driven Product Management professional with 5+ years of experience at Cognizant and a dedicated PM Launchpad apprenticeship, actively transitioning into AI-focused Product Management roles. Proven ability to collaborate with analytics teams, translate user data into actionable features, and drive execution from ideation to launch. Equipped with strong product intuition and a data-driven, user-centric mindset, having delivered 6 end-to-end AI product case studies applying RICE, PRD writing, AARRR funnel analysis, OKR setting, and GTM strategy. Brings hands-on expertise with Generative AI tools, including Claude AI, ChatGPT, and Lovable, to build and optimize innovative user solutions.

WORK EXPERIENCE

Senior Process Analyst

Cognizant Technology Solutions

2021 – Present

Remote

- Improved ad click-through rates and end-user understanding by an estimated 15%, measured by maintaining a 98% adherence to strict SLA targets, by producing and optimizing high-quality sitelinks for global advertisers.
- Enhanced Generative AI product output reliability by 20%, measured by audit adherence to strict accuracy and relevance parameters, by designing and applying structured quality evaluation frameworks to assess AI-generated content.
- Scaled content quality standards across 4 global client geographies, measured by a 25% reduction in operational delivery bottlenecks, by collaborating cross-functionally and functioning as a pseudo-product owner to align operational expertise with AI goals.
- Reduced recurring AI content errors by 15%, measured by a decrease in weekly quality escalations, by analyzing evaluation data to pinpoint root causes and providing actionable feedback to technical stakeholders.
- Accelerated onboarding for new team members by 15%, measured by time-to-productivity, by documenting edge-cases in AI outputs and standardizing our content evaluation guidelines

PROJECTS

Shaadi.com TrustMatch AI | Airtribe PM Launchpad

- Identified core platform failures including a 62% fake profile rate through analysis of 2,400+ reviews.
- Designed a 3-pillar AI system: Progressive Verification (RICE score 204), Preference Intelligence, and AI Smart Nudges.
- Developed PRD v1.0 and a phased GTM rollout targeting an NPS > 20 within 6 months.

Crafto Premium Conversion Strategy

- Surveyed 54 users to identify pricing friction; applied the RICE framework to rank a new Rs 49 pricing tier as the highest-impact solution.
- Built a live prototype on Lovable featuring a full GTM strategy, OKRs, and AARRR funnel analysis.

Twitter/X AARRR Growth Strategy | Case Study

- Identified a 60% activation drop-off ("Empty Feed Syndrome") via funnel analysis and proposed an AI-powered Shadow Feeds solution.
- Applied the RICE framework to rank the solution as highest impact, projecting a drop-off reduction from 60% to 30%.

Zomato Retention Strategy | Case Study

- Diagnosed 82% Day-30 churn and built a 3-phase retention roadmap.
- Defined a North Star Metric of 4M Weekly Active Orderers with strategies projected to 3x revenue per user.

SKILLS

Product Skills: Product Strategy and Roadmapping, Product Development Lifecycle, PRD Writing, GTM Strategy, Agile Methodologies, Scrum, Project Management, Stakeholder Management, Leadership and Team Management, Problem Solving and Decision Making.

Technical Skills: PM Frameworks (RICE, MoSCoW, OKRs, AARRR Funnel, JTBD, Kano Model, Story Mapping), Data Analysis and Analytics, UX/UI Design, User Research and Customer Insights, Cohort Analysis, Usability Testing, Surveys.

AI Skills & Tools: Claude AI, ChatGPT, Lovable, Canva AI, Prompt Engineering, Figma, Atlassian Jira.

EDUCATION

PM Launchpad Apprenticeship Airtribe	2025 – 2026
Master of Commerce (MCom) Mangalayatan University	2022 – 2024

CERTIFICATIONS

AI- First Product Management (View Certificate) Airtribe	2026
Claude For Product Builders (View Certificate) Airtribe	March - 2026
Quick Prototyping (View Certificate) Airtribe	April - 2026
